Updated: July 2021

For the past several years, we have been producing a Directory of Federal Government Communications Managers as a free service to the communications community. We thought it time to produce a similar directory on behalf of the Federal Government Change Management community.

The following is a draft of such a directory. We have attempted to identify managers involved in Change Management within the federal government. We appreciate that this first draft is far from perfect. We would like to call on the community to update the data for their own department or agency by reviewing and updating the information and returning it to us with the updates highlighted in yellow. If you see that there is missing data on your colleagues from other departments, we kindly ask that you forward this document to them so that they can update their information.

We will compile the results into an updated document and circulate a copy to everyone listed in the directory so that you will have contact information from senior change managers throughout the federal government.

If you have any questions, please contact me, Dale Harley, at 613-882-5684 or [dale@harleyhouse.com](mailto:dale@harleyhouse.com). Thank you for your assistance.
